The workers of the plant were holding a social evening at their Palace of Culture, and the distinguished guest was greeted by thousands of people. Both Nikita Khrushchov and Fidel Castro were presented with models of the ZIL car made at the Works. Before the concert, Nikita Khrushchov, Fidel Castro and his party saw a documentary film about the Works, which was the first Soviet automobile plant. Famous performers and amateurs took part in the concert, which wound up with the "July 26th March". The last was drowned in enthusiastic applause, and cries of "Viva Fidel!" and "Viva Cuba!" resounded in the hall long afterwards.

LEFTIST SUBVERSIVE ACTIVITIES-Soviet Directed Insurgency

Monthly CI Report
OSI District 30
May 1963

*in force

This Source was ACSE*

(S) (Gp-1) A Soviet Embassy official in Mexico City, Nikolai S. LEONOV, is allegedly actively planning an insurgent movement in Latin America. LEONOV left Mexico for the USSR on 21 April to confer with KHRUSHCHEV and CASTRO. Credence is given this report by the publication of a photograph of the three on 8 May in a Cuban newspaper. The photograph was purportedly taken during a recent meeting.

(S) (Gp-1) Cuba and Mexico, according to LEONOV's schemes, would serve as bases for the insurgency. Cuba would be the "invisible beachhead" and Mexico the point for covert distribution of arms.

(S) (Gp-3) The individual selected as the contact man for arms acquisition is said to have been engaged in similar activity in Guatemala about a year ago.

(S) (Gp-3) Another report from sources in Colombia stated that pro-CASTRO ex-President CARDENAS planned to call a meeting in Mexico City of "leftist bent", disgruntled retired military officers from Latin American countries on the subject of insurgency. (DIA, 3 June 1963)

The Soviet Government has assured the Cuban Government that it will give its assistance to the Cubans in the event of an aggression against Cuba. The Soviets consider Guatemala to be the most sensitive spot in Latin America at the present time, and are very interested in the Guatemalan problem. Because of this the Soviets are prepared to give their all out assistance to both countries in their current political struggles.

Nikolai Sergeyevich LIGNOV returned to Mexico 11 July 1960 and has been assigned to the Soviet Embassy staff, Third Secretary, diplomatic rank, as an assistant to Vladimir KOTIKOV in the Office of Cultural Affairs. While the Station feels that Fidel CASTRO Ruz's recent public statements admitting his long-time sympathies and associations with Communism somewhat lessens the exploitation impact of this "expose", it is also felt that LIGNOV's Mexican background, dating back to 1955 and including the incident played up by the Mexican press in 1956, is worthy of press replay. LIGNOV's return and present responsible position in the Soviet Embassy of Mexico will provide added interest in the story. The Station will therefore attempt to obtain the Mexican press accounts of the 1956 incident, updating this information into a press article for exploitation as suggested in reference.

FRACAT/Operational/Exploitation of Possible Contact of Soviet Embassy Employee with FIDEL CASTRO

ACTION REQUIRED: Publicize previous links of Soviet Embassy with Cuban 26th of July Movement and return of LIZNEV, if possible; see para. 5.

REFERENCES:

- A. MEM-839, (15 JUNE 56)
- B. MEM-9793, 23 March 1958
- C. MEM-8593 (15 JUNE 57)

1. Your attention is directed to reference A which mentioned the proposed FRACAT exploitation of the finding of the personal calling card of Nikolai S. LIZNEV in the address book of Fidel CASTRO Am.

2. Although there were OUTREX reports at the same time as reference A, which requested that the Mexican press carried a generally accurate and complete account of the breach of the Cuban revolutionary conspiracy, that the leader was linked with the Soviet Embassy and that he carried in his wallet a card of LIZNEV, secretary to the Soviet ambassador, it can not be determined at Headquarters whether there was specific Station play-up of this incident.

3. In reviewing Station dispatches pertaining to the CASTRO case, reference B was examined, as well as its attachment, the report of LIZNEV. The latter apparently attempts to explain the circumstances under which the personal card of LIZNEV was "planted" in the CASTRO address book. A discrepancy is noted in the reconstruction of the incident of the arrest of CASTRO and the discovery of LIZNEV's card in that both the reference and the attachment describe the circumstances surrounding the arrest of CASTRO as occurring in November 1955 whereas reference A had already reported the arrest and discovery of the card in the address book as having occurred in June 1956.

4. Now, there is renewed interest in this matter due to the fact that reference C reported LIZNEV's return to Mexico for what appears to be a second tour of duty.

5. The views of Station Mexico are requested as to whether it would be feasible to replay the original incident indicating the tie between CASTRO and LUGOV. Even if the incident was not exploited before, it is the opinion of Headquarters that it would be useful to cite a specific CASTRO tie with the Soviets before he took over in Cuba. From a Headquarters viewpoint the alleged action of LUGOV/2 in "planting" the card would still not impair the replay of the original incident.

I. SOVIET EMBASSY ACTIVITIES - LINE 4001

The following information on the activities of the Soviet Embassy in Mexico was developed during the month of October 1956. Separate reports will be furnished on the Commercial and on Cultural and Propaganda Activities of the Embassy. References made below to the visiting Soviet musicians will be detailed in a special report concerning the activities of the musicians while in Mexico.

II. DEPLACING

A. Relations with Mexican Government

1. On 1 October the secretary of Alfonso ROSENZWEIG Diaz, Private Secretary to Foreign Minister Luis PADILLA Nervo, conferred with Leonid M. SEMANOV, Third Secretary of the Soviet Embassy, about a dinner being given by the Embassy the following evening. Soviet Ambassador Anatoly G. KULAKOV invited ROSENZWEIG and his wife to attend a piano concert with him after the dinner. On 3 October ROSENZWEIG informed SEMANOV that he was very embarrassed about what had happened the previous evening, but he had had a meeting with PADILLA Nervo and had not gotten out until 8:30 p.m. He had not known whether to go to the Embassy or to the concert, and asked that SEMANOV excuse him with the Ambassador.
2. The private secretary of Jose GARCIAZA, Sub-Secretary of Foreign Affairs, left a message at the Soviet Embassy on 3 October indicating he would be unable to accompany the Ambassador to the concert by a Soviet violinist that evening, as he had to attend a special dinner. However, GARCIAZA had apparently accompanied the Ambassador to a piano concert the previous evening.

3. Eduardo JIMENY of Perex and (Mrs) GARCIA Rojas, also of Perex, accepted invitations from Boris A. KUZNETSOV, recently appointed Counselor of the Soviet Embassy, to lunch on 5 October at 2:30 p.m. When GARCIA Rojas became ill that day, KUZNETSOV and JIMENY decided to lunch alone, and meet another day with GARCIA Rojas. Later JIMENY had to postpone the luncheon because of a special meeting with Antonio GARCIA of Perex. Both JIMENY and GARCIA Rojas were invited and since the latter could not attend, KUZNETSOV had to be present. JIMENY suggested to KUZNETSOV that they postpone their luncheon date until 8 October when GARCIA would probably be able to attend also.
4. On 4 October KUZNETSOV contacted Bernardo RAMOS Morales of the Press Section of the Foreign Ministry and apologized for not being able to obtain a third ticket for him for a concert that evening. RAMOS had requested a ticket for his daughter, but KUZNETSOV assured him that since their tickets were for the balcony all three could probably enter on the two tickets.

Boris Aleksandrovich ~~KAZANTSEV~~, First Secretary, informed (fmu) ~~CARRION~~ Andrade of the Protocol Division that he would accept the invitation to the luncheon for ~~FIGUEROA~~, but that he would attend alone as his wife was in Moscow.
2. On 12 September Rafael ~~FUSONI~~, formerly of the local United Nations Office of Information, thanked Mikhail Prolovich ~~CHERKASOV~~ for the use of the typewriter, and asked what the Russian delegates had thought of the Geology Congress. ~~CHERKASOV~~ indicated that they thought it "magnificent." ~~FUSONI~~ also informed ~~CHERKASOV~~ that on Friday evening, 14 September at 8:00 p.m., a small dinner was being held at his home for an engineer named Eduard ~~GIZLIN~~ of Penex, (fmu) ~~GARCIA~~ Rojas, and some other engineers who helped organize the Congress, and that he would like to invite ~~CHERKASOV~~ and the man who accompanied him the last time. ~~CHERKASOV~~ indicated that he and Vitaliy Aleksandrovich ~~KHARINOV~~, First Secretary, would be pleased to attend.

3. KAZANTSEV informed the Oficina de la Comision Economica para la America latina (CEPAL) on 13 September that the Ambassador would be unable to attend the reception that day, but that GERRASOV would come in his place.
4. The Ambassador's request for an audience with the Mexican Foreign Minister was postponed until 11:00 a.m., Tuesday of the following week, 18 September, which is the usual reception day.
5. On 19 September Carlos PEDON del Valle, Chief of Protocol, informed Nikolay Sergeyevich ~~POPOV~~, Secretary to the Ambassador, that he would be unable to accept Ambassador KULAZHENKOV's invitation to dinner on 27 September because of a previous engagement with the Ecuadorian Ambassador.
6. On 20 September Boris A. KAZANTSEV, First Secretary, discussed with Cristobal LAFA of CEPAL a meeting of the Economic Commission scheduled to take place in La Paz, Bolivia at the beginning of 1957. No definite date has been set, but LAFA estimated it would probably be held in May of the following year. Since LAFA was leaving the city on Monday, 24 September, for a two-week vacation, he could not accept KAZANTSEV's invitation to lunch, but promised to call him on returning to Mexico City.
7. On 25 September KAZANTSEV indicated he was sending a gift to Delfin ~~SANCHEZ~~ Juarez, a lawyer, of the International Affairs Office of Seguro Social (Social Security).
8. Also on 25 September KAZANTSEV tentatively arranged a luncheon date for Thursday, 27 September, with Eduardo ~~WZMAN~~ and (fnu) GARCIA Rojas to thank both of them, in the name of the Ambassador, for all the attention they had paid to the Soviet delegation to the Geological Conference.
9. Alfonso ~~ROSENZWEIG~~ Diaz of the Foreign Ministry invited Yevgeniy Mikhaylovich ~~POPOV~~, Third Secretary, and his wife to dinner at his home on Tuesday, 2 October. ~~POPOV~~, who expected to be out of town from Saturday until Tuesday or Wednesday, suggested a later date. B. Relations with other Latin American Diplomats:

1. Vladimir Michaylovich PAKOV of the Soviet Embassy arranged a meeting between GIERKASOV and the Venezuelan Ambassador on 4 September. The Ambassador had previously expressed a desire to see GIERKASOV on that date.
2. On 3 September PAKOV made arrangements for GIERKASOV to see the Haitian Ambassador at 4:00 p.m. at the Haitian Embassy. PAKOV also made similar appointments at the Guatemalan, Dominican, and Costa Rican Embassies. An attempt to contact the Honduran Charge d'Affaires was unsuccessful at that time, but an appointment was made later in the week.
3. Gaston FORALES Barragan, Second Secretary of the Peruvian Embassy, contacted the Soviet Embassy on 7 September concerning a communication about the disarmament question addressed to the President of the Chamber of Deputies and a note of Soviet opinion on the Suez question. Since Peru does not have diplomatic relations with the Soviet Union, FORALES could not send these notes to his country, and would return them to PAKOV.
4. On 12 September KAZANTSEV contacted Hugo NAVARRO Polandi, First Secretary of the Costa Rican Embassy, who said he had attempted to reach KAZANTSEV about a certain matter, for President FIGUEROA had told him that he would have an opportunity to see the Russian Ambassador both at dinner at the Foreign Office that day and at the reception in the evening.
5. On 17 September The secretary of the Nicaraguan Ambassador made arrangements through Nikolai LEONOV, Embassy official, for a meeting between the two Ambassadors for 27 September at 8:00 p.m. in full dress.
6. KAZANTSEV attempted on 19 September to arrange a meeting with Antonio CHOCANO Batres, First Secretary of the Guatemalan Embassy. CHOCANO appeared hesitant to commit himself to a specific date, and finally asked KAZANTSEV to call him on the 25th. KAZANTSEV seemed to ignore CHOCANO's disinterest in the matter.
7. On 19 September LEONOV left a mess age at the Ecuadorian Embassy, saying that Ambassador KULAZENOV wished to invite the Ecuadorian Ambassador to luncheon or dinner on 25 or 26 September. No definite plans were made.

8. On 20 September the Argentine Ambassador attempted to contact KULAZHENKOV who was busy at the time with the Norwegian Charge d'Affaires. He wished to know the time of the Soviet dinner on 27 September as the Venezuelan Embassy was having a ceremony from 7:00 to 9:00 p.m. on the same day, and he would like to attend both functions. The Soviet invitation was for 8:00 p.m. so the Argentine Ambassador decided he would go to the Venezuelan ceremony first, and arrive a little late for the Soviet dinner.
9. NEIVO for many years active in the Mexican Diplomatic Service, at one time being Charge of the Mexican Legation in Warsaw, Poland. Now about 75 and inactive in Government, but does write articles for the newspaper Exclusion (REMA 3735 5 Dec 55).

6 January 1956: The daughter of General Heriberto JARA spoke with Subject at the Soviet Embassy saying she had been told that he was the person who could inform her of when she should come by to pick up translations of the "clinical documents" relative to herself and her father. Subject said they were having some trouble getting the documents translated because of the medical terms, but said they should be ready in about five days (REMA 4200).

1 February 1956: Subject called Velia Jara de NIETO, daughter of General JARA, and told her that the translations of her father's clinical history had been made from Russian into Spanish. Mrs. NIETO said she would visit the Embassy the next day and ask LEONOV for the materials (REMA 4410).

24 February 1956: One Samuel RAMOS contacted Subject who acts as secretary to Soviet Ambassador, Mexico. RAMOS told LEONOV "We are not going to meet at my house this afternoon, but at S-LGO's (which is at) Insurgentes 429-51 at the usual hour." Subject replied that he thought he could get to the meeting at 1900 hours and sent greetings "to the boys." RAMOS said "we have some books we want to order through LEONOV" (REMA 4536).

2 March 1956: Samuel RAMOS left a message for Subject that "if he has time I hope he will come to my house today" (REMA 4600).

7 March 1956: Samuel RAMOS called Embassy and asked for data on the possibility of staging an international chess match in Mexico. In this conversation it was indicated that RAMOS is in the academic line of work. He stated that he was "back in classes" and that meetings could no longer be held in his home. He told LEONOV that a tournament featuring a person named "PCOMAND" would begin Monday (12 March) and invited Subject to see some of it. LEONOV said he would attend if he had time. RAMOS then asked when he could see LEONOV to give him a list of books "we want". LEONOV told him to come to the Embassy at any time, and RAMOS said he would come right away (REMA 4600).

o. 27 June 1956: Subject's personal calling card found in address book of Fidel CASTRO-Ruz, Cuban revolutionary detained in Mexico (MEXI 839 IN 35356 REF: MEXI 826 IN 34161).

Official Activities

LEONOV remains an obscure figure and although we assume he is employed in the administrative section of the Chancellery, we cannot pinpoint his duties. He has identified himself from time to time as the secretary to the Ambassador, has been noted taking his turn as embassy duty officer and has taken hospital bedside guard duty. During 1953, before the arrival of the regular administrative officer, Vladimir Ivanovich ZHUKOV, in November 1953, LEONOV was handling calls concerning goods and services but was probably merely filling in, because of his facility with the Spanish language, until ZHUKOV's arrival. In December 1954 APARENOV asked one of the guards whether he had the keys to LEONOV's room in the embassy. Since, during that time, we believe LEONOV was residing at Industria 71, it would appear that LEONOV had a private office in the embassy, one which was apparently kept locked when he was away. One or two other very vague references indicate he might have something to do with communications work. Beginning about November 1955 LEONOV began to emerge as an interpreter and translator. He spent a good deal of time with the Social Security delegation, with Soviet pianist GILELS and with Soviet movie director ALEXANDROV, each time appearing as the interpreter or translator. His recent association in January 1956 with the daughter of Communist General Heriberto JARA also involved translation work. Other more recent references make us begin to wonder now if LEONOV might not be connected with the Cultural Section. During the last two months of 1955 he appeared to be associated in work with PASTUKOVICH, director of the Soviet Embassy Information Bulletin. In March 1956, when PAPOROV could not keep an appointment at University City at the invitation of Mexican President RUIZ CORTINES, he asked that either LEONOV, GUNDAREV or POPOV keep the appointment. It is known that PAPOROV, GUNDAREV and POPOV are all definitely assigned to the Cultural Section indicating further that LEONOV may be associated with that group. We, therefore, classify LEONOV as

LEONOV

having worked in the administrative section until late 1955 when his position began to appear as that of translator and interpreter, perhaps more clearly associated with the cultural section. Again, however, he may still be assigned to administrative work in the Chancellery which overlaps with the cultural and.

LEONOV's contact with Samuel RAMOS as dispatched in HM-A-4356 (19 March 1958) was reported again on 7 March 1958 when RAMOS called LEONOV and the two discussed a chess tournament to which Soviet delegates were apparently to be invited. When LEONOV asked from where RAMOS was calling, he replied from his home. RAMOS stated he was now back in class "at the University" and so "we won't be able to meet at my house now." RAMOS invited LEONOV to one of the tournaments the following week and also made arrangements to visit subject at the embassy to give him the list of books "which we want..."

Unless LEONOV has something to do with consular affairs, we are at a loss to explain the following LIMERICK reference. On 10 November 1955 a man identifying himself as "your friend, Col. GONZALEZ" asked LEONOV if he had found out about some matter he had requested. It appeared that LEONOV had forwarded the "request" to the USSR and that the Mexican Ambassador to the Soviet Union was to notify Col. GONZALEZ. GONZALEZ stopped short after starting to ask what happened to that matter, explaining it would be better if they got together and talked it over. The two arranged to meet at the embassy. At the beginning of the conversation GONZALEZ, in recalling to LEONOV's mind who he was, stated, "We were chatting about this project which I have to present to the Presidencia about the use of the waters from the Toluca volcano, Chinantecatl." The Cia. Exportadora e Importadora Mexicana, S.A. (CEIMSA) had commissioned GONZALEZ to go to Chihuahua to see some farmers and therefore he was not able to contact LEONOV earlier.

Other than the two preceding LIMERICK references, which in themselves are inconclusive, we have no indication that LEONOV is engaged in RIS activities.

There are vague references suggesting that the LEONOVs may be leaving Mexico in April 1958.

Private Activities

During February 1954 LEONOV was hospitalized at the Sanatorio Balneario where he underwent an appendectomy performed by Dr. Gustavo RAZ.

A LIGOL-2 reference of August 1954 revealed that former Soviet Consul MEINIKOV and his wife agreed that LEONOV played well (possibly a musical instrument or a ball game ??). During March 1955, after he had arranged a movie or given a lecture, two of the embassy wives remarked on how good LEONOV was. (It is known that LEONOV has taken his turn at giving Political Information Class lectures.) LEONOV also appears to enjoy athletics -- he plays tennis, attends shooting matches, arranges football games with the Coachs, and plays volleyball. He takes some sort of lessons, not necessarily Spanish, in the embassy. As for LEONOV's feeling about American movies, he was heard to tell one of the Social Security delegates, "You can really run into trash in an American film."

LEONOV

page 51

It is reported by LIMBUCK that LEONOVA gives some sort of instruction to embassy personnel and although it is not known just what type of lessons these may be, we venture a guess that she teaches Spanish. During October 1955 LEONOVA underwent a very serious operation, lasting two hours, during which the anesthetization had to be discontinued because her heart could not take the strain. LEONOVA returned to work again in November 1955.

Although one vague reference hinted that LEONOVA may be pregnant now, there have been no allusions to any children the LEONOVs might have. When MATVEYEV returned from home leave in the USSR in October 1955, while LEONOVA was undergoing her operation, he said he had seen LEONOVA's father but, because of his age, it would be better that he not be told of her sickness.

Samuel RAMOS; Renee SALGO Burger; et al

1. LIMERICK reported that on 24 February 1956 one Samuel RAMOS contacted Nikolai S. LEONOV, who acts as secretary to the Soviet Ambassador in Mexico. RAMOS told LEONOV "We are not going to meet at my house this afternoon but at SALGO's (which is at) Insurgentes 429-51 at the usual hour." LEONOV replied that he thought he could get to the meeting at 1900 hours and sent greetings "to the boys." RAMOS said "we have some books we want to order" through LEONOV.

2. On the face of it, this conversation appeared to be quite unusual and attracted the interest of this Station. Furthermore, it is known that for years the Soviets have used the hours between 1900 and 2000 for meeting clandestine or unusual contacts in Mexico.

3. The following steps were taken to ascertain general information on RAMOS and "SALGO":

a. Station file record on Samuel RAMOS resulted in no clear identifications. There is a Samuel RAMOS who was listed in 1948 as Rector of the School of Philosophy and Letters of the University.

b. LIRISTHENITE ascertained that the address mentioned is occupied by a female doctor named Renee SALGO Burger, allegedly of French nationality, who operates a beauty parlor. This is confirmed in the telephone book.

c. Files of this office indicate an ODEWY report that one Renee SALGO was a member of the Hungarian club EMUNA in 1951. The files also show that one Alejandro BURGER was a member of the club and that he and Renee lived at the same address. The file further shows that one Andres SALGO was a member of the club and describes him as a Communist sympathizer.

III. HISTORY OF SOVIET COMMERCIAL ORGANIZATION SINCE 1949:

*SAMOILOV, Mikhail Kuzmich, was Commercial Officer from November 1949 to 14 November 1954, part of the time under Commercial Counsellor KUDIN, since departed.

*MAYEVSKI, Aleksei Danilovich, went through a break-in period in administrative and operational routines from March 1954, to September 1954, with SAMOILOV still nominally in charge.

*BOLSHAKOV, Leonid Ivanovich, appeared in September 1954, and also went through a similar break-in period until 14 November 1954, when SAMOILOV left. From 14 November 1954, to date, BOLSHAKOV has been in complete charge of the Commercial Office.

IV. RESPONSIBILITIES AND DUTIES OF THE COMMERCIAL OFFICE:

The main efforts of the Soviet Commercial Office as evidenced by its past and current activities are as follows:

- (a) A determined effort to infiltrate into Mexican industry and trade, by the introduction and implementation of transactions advantageous to local industry and trade.
- (b) Establishment of important economic and financial contacts in the Mexican government.
- (c) Establishment of contacts with Mexican rank and file business people.

TOP SECRET

- (d) Coordination with Soviet Cultural Office in the procurement of certain films, books, and other propaganda material, and distribution of same.
- (e) Utilization of Mexico as springboard for trade with other countries in Latin America.

V. METHODS OF ECONOMIC PENETRATION

In order to attain economic objectives in Mexico, the Soviets utilize various methods. According to observations made about past and current activities, most of them fall under two headings, which overlap. These are:

- (a) Extensive use of local business contacts.
- (b) Cultivation of key people in various organizations which can be easily used as propaganda outlets (i.e., films and newspapers) or as more conventional contacts (banks and customs officials, etc.).

VI. SOVIET COMMERCIAL CONTACTS AND TRANSACTIONS:

Set out below is a listing of the contacts made by the Soviet Commercial Office during December 1955, together with details as to the nature of these contacts, and the transactions made or proposed with them.

A. Combined Propaganda and Commercial Contacts:

- 1. BANDERA, Molino, Juan,
Películas Mexicanas
Ejido 43-107-105
Phones: 25-33-65; 36-46-05; 10-12-99; 18-22-48; 18-60-05; 21-30-81; 10-12-74.

BANDERA is a direct contact of the Soviet Commercial Office in the matter of film procurement, as well as an intermediary in securing Mexican films for the Soviets. It is known that the Soviets must purchase a certain amount of Mexican films; in order to be able to sell and exhibit theirs here. BANDERA was consulted several times during the month of December 1955, on film procurement. On 1 December 1955, MAYEVSKI (see IIA 2 Personnel), consulted BANDERA in reference to having BANDERA procure a certain film on time, so that a contract could be signed. Due to BOLSHAKOV's absence on a trip (see HMM-A-4109, pp. 2,3,4, 6 February 1956), MAYEVSKI wished to have the contract signed before 1 January 1956.

On 20 December 1955, BOLSHAKOV consulted BANDERA on whether the Mexican film "Raices" could be acquired. BANDERA explained that Cinex (a film company) controlled this film, but arranged a meeting for BOLSHAKOV with the director of Cinex, for 1200 on 21 December 1955.

- 2. CALVET Mario Arce,
Cine Films De Mexico SA
Av. Morelos 45-206-Sis 7-8
Phones: 21-13-46; 55-98-04.

CALVET appears to be a very important contact for the Soviets in the coordination of various factors. According to information received, he is very

active in showing Soviet films presented in Mexico, smoothing out customs difficulties, arranging for favorable publicity for Soviet films, and is making an effort to circulate Soviet films elsewhere in Mexico beside in the capital. CALVET, according to one report, is the sole exhibitor of Soviet films in Mexico.

On 1 December 1955, MAYEVSKI consulted CALVET about some books which he (MAYEVSKI) wished sent to the Soviet Export Film Office. MAYEVSKI had received a cable from Soviet Export Films on returning films which were on permit No. 117772242. CALVET arranged an appointment with Jorge PERPETIS, head of Cinematografia (Mexican Government film department), for MAYEVSKI on 3 December 1955. It is believed that PERPETIS is the man to see for withdrawal approvals.

On 17 December 1955, LEONOV, Nikolai Sergeyevich, an administrative employee of the Soviet Embassy, contacted CALVET in reference to possible receipt by CALVET of new Soviet films. CALVET informed LEONOV that the only information he had, had been given to MAYEVSKI a few days back.

On 17 December 1955, it was ascertained that BOLSPAKOV had been shown parts of the films and titles of Soviet pictures, as revised for showing in Mexico. It was further ascertained that plans were afoot to inaugurate Soviet film showings at the "Teatro Ideal". The Teatro Ideal is alleged to have 1600 seats.

MAYEVSKI repeatedly told CALVET that he was interested in obtaining showings for the Soviet films, "Romeo y Julieta," and "Gran Familia."

On 17 December 1955, POPOV, Yevgeni Mikhailovich, 3rd Secretary of the Soviet Embassy, asked CALVET through MAYEVSKI to give certain films to the Soviet Embassy.

Arrangements were made for POPOV and ROMANOV, Leonid Mikhailovich, 3rd Secretary in the Embassy, to pick up some films. Among those obtained were "Gran Familia," "Romeo y Julieta," and the "Golden Antelope."

On 19 December 1955, it was arranged for POPOV to call on CALVET for certain films.

On 30 December 1955, the Soviet Embassy was notified by the Mexican Government that permission had been received for showing certain films, but not for "The Best in the World."

Editorial Popular (also known as Fondo De Cultura Popular), Hidalgo 75

Phone - 12-37-77

This Communist publishing and bookselling shop has been noted as an outlet for Soviet books and periodicals for years. Its two managers, Jesus LAZCANO and Miguel Angel VASQUEZ, are both Communist Party members. Over the years they have imported a steady though relatively small amount of Soviet material.

In general, contact between the Editorial Popular and the Soviet Commercial Office takes place through LAZCANO and VASQUEZ on the one hand, and IZOTOV and MAYEVSKI on the other.

TOP SECRET

It was ascertained that in December 1955, the Editorial Popular was selling copies of two Maxim Gorki's works, their titles translated into Spanish being "Los Sarta Monos" and "Mi Infancia."

4. GRIJALVO (or RIJALBO) Serres, Juan,
General Manager of Exportadora De Publicaciones Mexicanas S. de R.L.,
Av. De La Granja 82
Phone: 27-46-57

On 20 December 1955, GRIJALVO sent word to the Commercial Office that a book entitled "Economia Politica," which the Soviets were apparently anxious to acquire, was ready and asked the Commercial Office to state the quantity needed.

B. Purely Commercial Activities:

1. EISENBERG, Jacques, was contacted on 16 December 1955, and reportedly told the Soviets that the affair with the electrodes would have to be postponed until 10 or 15 January 1956, due to his (EISENBERG's) sickness. This electrode transaction was connected with the visit to Mexico of two Soviet engineering experts (Comments: See HMM-A-4109, pp. 2-4, 6 February 1956). EISENBERG is known to be considering a deal with the Soviets in agricultural machinery, and to be participating in a trade agreement with the French Government in cotton. EISENBERG has been noted in connection with Czech commercial activities in Mexico.

2. GONZALEZ, Jose R.
Uruguay 55-218

GONZALEZ is a frequent contact of the Soviet Embassy Commercial Section, and their actual and proposed transactions cover a rather wide range.

a. Rails and Pipes

Early in December GONZALEZ and MAYEVSKI discussed the prospects for importing Soviet pipe and standard gauge railway rails into Mexico. It is reported that the market for rails in Mexico was not considered to be very hopeful, but the Soviets believed they might be able to arrange some sales in Central America.

b. Petroleum

GONZALEZ brought news that the Matarazzo industrial combine in Brazil had bought sufficient petroleum (from outside the Soviet orbit) to cover its needs for four months, but would need more when the above time expired. MATARAZZO asked for an estimate on about 15-20,000 tons of Soviet petroleum delivered in about 100,000 drums per boat.

c. Cellulose

GONZALEZ informed BOLSHAKOV that a US firm named PAPSONS & WHEAT wished to know why GONZALEZ was selling cellulose to Brazil, and further wished to know GONZALEZ's source of supply.

TOP SECRET

GONZALEZ informed BOLSHANOV that an unnamed Chilean company wanted to buy a 1000 tons of raw cellulose. Other information given by GONZALEZ was to the effect that he had received correspondence giving Finnish and Swedish prices on cellulose.

Wood Pulp

GONZALEZ informed BOLSHANOV that a large wood pulp company in Brazil was interested in doing business. It was reported that the transactions would be made with a Sociedad APAL de S.A.. The difficulty in dealing with APAL was that he wished to have cargo marked as coming from another country, rather than the country of origin.

Copper

It was also reported by GONZALEZ that someone named CHILIS was interested in making a deal in copper (no details).

3. RASSER Quinones, Guillermo,
Director-Manager of Compensation Internacional, S.A.
Bolívar 51
Phone: 21-70-81

RASSER engaged in talks with BOLSHANOV on several occasions, discussing the following items:

- a. Wood and the need for a factory and equipment of a (Sr.) RIVERA (fmu), probably sawmill machinery.
- b. Samples of agricultural machinery from the USSR.
- c. Information on unspecified chemical products.
- d. Vague talk on watches, cigars, and medical equipment.

4. RIVERA, fmu,
Member of Comercial Ultramar S.A. Reliable
Barburo 138
Phone: 35-21-17; 35-21-18; 14-55-81.

RIVERA and BOLSHANOV discussed the impending arrival of certain recorders reportedly due at the end of the month of December 1955 in Veracruz.

5. PEREZ Urizar, Adolfo,
Manager of Tractor Dept., Ford Motor Company S.A. Reliable
Calleada Guadalupe y Henry Ford
Phone: 17-50-00

PEREZ was visited twice in December 1955, by MATEWSKI; the talks were held on farm equipment, i.e., agricultural machinery, such as tractors, etc.

TOP SECRET

It is reported that MOFAN discussed on various occasions the mechanics of credit modifications with KATWEN. It was reported that MOFAN mentioned the fact that other business firms had requested him to modify the letters of credit, and it was also ascertained that the modifications for the letters of credit were done. MOFAN may be connected with the Naval foodshop.

2. ZELLINGER

Richard Zeller

A man named ZELLINGER also has various deals under discussion with the Soviets, among them being:

- a) Alkalines and Alkaloids: ZELLINGER sought information on establishing a trade in alkalines. It is believed that this deal may be well advanced. ZELLINGER expressed a need for alkaloids and for a special machine needed for this. It is reported that BOLESHANOV informed ZELLINGER that either the machine or information on the machine had already been sent, and that ZELLINGER had an excellent mechanic with General Electric experience to install this machine.
- b) Acids: According to information received, the USSR claimed not to have Letters of Credit for transactions involving Red Black and Blue Black acids.
- c) Radios: ZELLINGER claimed to have a market for radios on the condition that these not be imported fully assembled. The purchasing people desired information on parts, assembly, details and pictures. It was highly desirable to import and assemble the radios here. In conjunction with this ZELLINGER claimed to have a market for TV parts.
- d) Drills (Unspecified type): It is reported that ZELLINGER was involved in a transaction for \$8,200 worth of drills (ZELLINGER is reportedly connected with ZLOTNIK, see below).
- e) Medicines: It was ascertained that ZELLINGER had presented a list of medicines most widely used in Mexico. ZELLINGER, according to reports, had stated that he could sell as much of the medicines as could be provided him by the USSR.
- f) Cameras: It was reported that ZELLINGER claimed to have a market for cameras.

3. ZLOTNIK, Abraham
Toltacas 166

Abraham Zlotnik

ZLOTNIK appears to be both an independent businessman and intermediary for other businessmen dealing with the USSR. It was ascertained that most of ZLOTNIK's transactions during the month of December concerned dyes. According to information gathered, delay on shipment of several types of (unspecified) dyes, was caused by the wait for a Letter of Credit. Direct Violet K dye, for which a Letter of Credit was opened on or about 30 November 1955, was not sent evidently due to shortage of same. It was reported that the Soviet Commercial Office stated that, according to a contract dated 29 October 1955, all the dyes were packed and awaiting shipment from an unknown

port of export. It was stated that no Letter of Credit had been received for certain dyes, but ZLOTNIK claimed to have sent a Letter of Credit some time back to Sojuzkhar Export, through the "Banco Popular."

ZLOTNIK stated that Violet Dye had arrived a few days back, but that he lacked information on how it was charged.

There was also some brief information to the effect that ZLOTNIK had given an order for tools.

C. Miscellaneous Commercial Activity:

Other transactions on which vague information has been received were:

- 1) Dyes: Confirmation received from Moscow on Letter of Credit 18 978 for Violet Dyes.
- 2) Coffee: BOLSHEVNIK ridiculed a newspaper story that a Latin American country (Colombia?), claimed the Soviet Union was offering dollars for that country's coffee.
- 3) TV: Vague information has been received to the effect that Soviet Export Film is interested in the TV market in Mexico.

Information on certain contacts is rather vague; but it was ascertained that the Soviet Commercial Office had dealings with the following in December 1955, the exact nature of which was not clear.

- 1) GARCIN, Francisco, a member of the "Comision de Vigilancia" (Part of Mexican Social Security).
- 2) GARCIA Vidal, Raul, was contacted by BOLSHEVNIK during the month of December 1955, with information that certain material was in readiness for GARCIA. It has not been ascertained exactly what GARCIA's relationship with the Soviet Commercial Office is.

SPECIFIC Identifications from Soccer Match Photographs

1. [redacted] the Vienna Station collection was able to make 43 identifications from this collection, some by name and position, some only by function. In a few instances, as indicated specifically below, his identifications were erroneous, but are nonetheless forwarded on the assumption that even this fact will be of interest to you.

2. A total of twenty-one (21) separate photographs, some of them merely sections cut out of the original enlargements, are sent as an attachment to this dispatch. Persons identified by [redacted] are indicated on them by a heavy black inked circle around their heads; in a separate circle to the side, or in some instances above the circle surrounding their heads, are the numbers keyed to the list in Paragraph 3 below. In the event you have difficulty deciphering the numbers inked in on the front of the photos, you may refer to the reverse side, on which you will find the same numbers in approximately the same positions. We have just completed transmission of all negatives of the photos represented in the attachment. From these negatives, it will be possible for Headquarters to make individual blowups of the personalities identified by [redacted] for the appropriate Washington files. As you are already aware, the numbering system used on these negatives is that devised by the U.S. Photo Section, which was responsible for taking the photos. For the six different matches represented in the attached photos, the following are the pertinent references:

a. Series 9954: Austria vs. Germany, Fall 1951. Negatives transmitted in EAVA-12175, 25 October 1955.

However, if the poor race and FBI feels there is a chance that the two men are identical, the information can be obtained, as well as photographs. There is also a photograph of the above named person. There is a striking resemblance between the two not to be denied, even although the latter is a much older man.

the young priests undergo a thorough study of Marxist-Leninist doctrine. After graduation they are appointed to parishes where they exercise their pulpit prerogative by preaching Communism to the faithful. According to sources, when one of these young priests is first appointed to a given parish, his first step is to go to the local Communist Party secretary and ask him what the Party missions in the area are and how the priest could be of assistance in carrying out these missions.

6. Sources state that religion is becoming a tool of the Communist Party of the USSR since most of the older priests of the last generation, who would have fought Communism, have died off or have been purged and the younger priests, who have replaced them, are completely dominated by Communist Party influence.

24 March 1954

LIMERICK, LIPSTICK, LIVESTOCK

Name: Nikolai Sergeyevich LEONOV
Born: 22 August 1928 in Ryazan
Arrived in Mexico: 11 July 1953 aboard SS Andrea Gritti, Veracruz, with wife
Documents: Holds service passport 10724, issued 29 January 1952, in Moscow
Title: Unknown Position: Unknown
Residence in Mexico: Juarezatlan 81
Wife: Valeriya Ivanovna
Children: None known. None in Mexico
Languages: Spanish good
Other personal data: Nickname - KOLYA
Occasionally drives one of Embassy automobiles

Official Activities

Our few references to LEONOV make it appear that he, like BELIAKOV and ANTIASOV, with whom he seems to be vaguely associated, is a third echelon functionary who probably performs a variety of administrative tasks in support of one or another phase of the Embassy operations and might be in on-the-job training for a specialized job as assistant to, at a guess, SAMOILOV. In early August, shortly after his arrival, he called a woman instructor at an obscure local business school and was told that he could come by for his grades the following week. (We infer from another conversation that MATVEYEV was attending this school with him.) LEONOV was also with ANTIASOV and BELIAKOV when ANTIASOV was detained on their way "back from the University" at the end of September. (See ANTIASOV.) This should indicate that he was principally occupied during the weeks after his arrival in acquainting himself with local business methods and commercial practices, and perhaps taking some further formal instruction. Otherwise, his appearances in the traffic have been limited to answering the telephone for both KOLOMYAKOV and SAMOILOV in their absence (without making decisions or taking any action) and, under the tutelage of LAZAREV before the latter's departure, making routine calls connected with ordering wine, repairing the movie projector, and the like. He has also occasionally been seen driving one or another of the Embassy automobiles, apparently filling in for one of the chauffeurs.

Private Activities

Our only information on LEONOV's private life is the fact that the ZHEKOVs moved into the LEONOVs' apartment (No. 4 at Industria No. 71) upon their arrival

42500

on 7 November and the two couples lived together for about three weeks, when the LEONOVs moved into other quarters at Juancatlan 82. (There were no indications that the original arrangement had ever been intended to be other than temporary or that the subsequent move of the LEONOVs was due to friction between the two couples.) This raises the suggestion that LEONOV may be associated in some way with LEONOV within the Embassy as well, a possibility which is borne out to some extent by the fact that both habitually answer and make calls from the same Embassy telephones.

Comment

We cannot yet assess LEONOV for operational purposes.

Name: Valeriya Ivanovna LEONOVA

Born: Unknown

Arrived in Mexico 11 July 1953 aboard SS Andrea Grillo in Veracruz with husband

No known title or position

Residence in Mexico: Juarezville 81

Children: None known, None in Mexico

Languages: Unknown

Other personal data: Nickname: LERA

Private Activities

Although we have no definite indications to that effect, there is a fair possibility that LEONOVA is employed in some administrative or clerical position in the Embassy, since she seems to be present in the Chancery area a good deal during office hours and, without children, would not otherwise have a great deal to do.

Our only information relating directly to LEONOVA occurs during a conversation between APARKINOVA and MELNIKOVA on 26 October in which APARKINOVA complained bitterly that LEONOVA was shirking her share of responsibility in preparing food for the 7 November reception. LEONOVA had apparently failed to buy ingredients, after being asked to do so, on the plea that she had not been told exactly what kind of apples to get nor where to buy them. APARKINOVA: "KOMISOMOLTSI always brag about being in the front line, but in actuality, bah!" MELNIKOVA: "Yes, when I was at their home, we happened to discuss the reception, and Rita (ANTYASOVA) said, 'Why should we do the work for the reception?' I told her she should be ashamed of herself. I work in the Embassy and hold out during receptions and all holidays, and I don't complain. LEONOVA claims she is not going to do any shopping because she was not given the responsibility." APARKINOVA: "What does she mean? I met her and said 'Lera. . .'. She said she'd come over Sunday and make a list of the things to be bought." MELNIKOVA: "And she didn't come over. She was probably afraid of the work and the money involved. APARKINOVA: "How silly. I told her we would refund all expenses."

Comments

We infer that LEONOV (and perhaps her husband as well) is a good KOMISOMOL and may be endowed with the aggressively unpleasant personality which the Soviet system seems to foster so often. As shown in our photo coverage, both she and her husband have the appearance of persons who could be the well-disciplined, unquestioning, devoted Communists idealized in Soviet propaganda.

Nikolay LEONOV

20 May 1955: Rodolfo NERVO called Subject and was told "We have found the books and material you requested (re Soviet foreign policy)." LEONOV said he would take the books to NERVO the next day. NERVO for many years active in the Mexican Diplomatic Service, at one time being Charge of the Mexican Legation in Warsaw, Poland. Now about 75 and inactive in Government, but does write articles for the newspaper Excelsior (HMA 3736 5 Dec 55).

6 January 1956: The daughter of General Heriberto JARA spoke with Subject at the Soviet Embassy saying she had been told that he was the person who could inform her of when she should come by to pick up translations of the "clinical documents" relative to herself and her father. Subject said they were having some trouble getting the documents translated because of the medical terms, but said they should be ready in about five days (HMA 4200).

1 February 1956: Subject called Velia Jara de NIETO, daughter of General JARA, and told her that the translations of her father's clinical history had been made from Russian into Spanish. Mrs. NIETO said she would visit the Embassy the next day and ask LEONOV for the materials (HMA 4410).

24 February 1956: One Samuel RAMOS contacted Subject who acts as secretary to Soviet Ambassador, Mexico. RAMOS told LEONOV "We are not going to meet at my house this afternoon, but at SALGO's (which is at) Insurgentes 429-51 at the usual hour." Subject replied that he thought he could get to the meeting at 1900 hours and sent greetings "to the boys." RAMOS said "we have some books we want to order through LEONOV" (HMA 4336).

2 March 1956: Samuel RAMOS left a message for Subject that "if he has time I hope he will come to my house today" (HMA 4600).

7 March 1956: Samuel RAMOS called Embassy and asked for data on the possibility of staging an international chess match in Mexico. In this conversation it was indicated that RAMOS is in the academic line of work. He stated that he was "back in classes" and that meetings could no longer be held in his home. He told LEONOV that a tournament featuring a person named "POLZARD" would begin Monday (12 March) and invited Subject to see some of it. LEONOV said he would attend if he had time. RAMOS then asked when he could see LEONOV to give him a list of books "we want". LEONOV told him to come to the Embassy at any time, and RAMOS said he would come right away (HMA 4600).

c. 27 June 1956: Subject's personal calling card found in address book of Fidel CASTRO Ruz, Cuban revolutionary detained in Mexico (MEXI 839 IN 35356 REF: MEXI 825 IN 34161).

22-29 July 1956: Subject served as translator for Eighth International Radiology Congress Soviet delegates (HMA 1752).

1 October 1956: Subject and wife requested U.S. transit visas to leave Mexico 17 Oct by rail, entering U.S. via Laredo; to depart New York 24 October on Queen Elizabeth (MEXI 231 IN 34833 6 Oct 56).
